About Us

BİRLEŞİK İLAÇ İLAÇ SAN. Ve TİC. A.Ş.

The company started manufacturing medicinal / medical items after taking over BOZOK laboratories in 1974. They realized business opportunities in the market, quit medical section, and penetrated into baby cosmetics field under BEBETEN trademark afterwards. Now, BEBETEN (powder, shampoo, bath foam, cream, lotion etc..) has become the most preferred and known brand of Turkish people with confidence.

The company was continuing its activities in YENİ BOSNA district 10 years ago, then decided to set up a 3000 square meter facility in BEYLIKDUZU/ISTANBUL in order to reach high quality targets and they have been manufacturing in the same plant since then. In terms of sustainability, the company has gained all necessary quality standards needed for domestic and international markets.

BİRLEŞİK İLAÇ SAN. Ve TİC. A.Ş. has been dominating 'cosmetics powder' market in pharmacies and drugstores with 65-70 % share for 40 years, also manufacturing special products for adults during last 5 years apart from baby cosmetics.

BİRLEŞİK İLAÇ SAN. Ve TİC. A.Ş. manufactures under private label conditions for other reputable companies too by building trust to every one without compromising quality. In addition, domestically and internationally patented plastic bottles and lids are made in the same facility for the first time in the sector (for our products and private label items).

We would like to point out that our top priorities are quality and trust as we started this journey in accordance with the same principles 40 years ago.

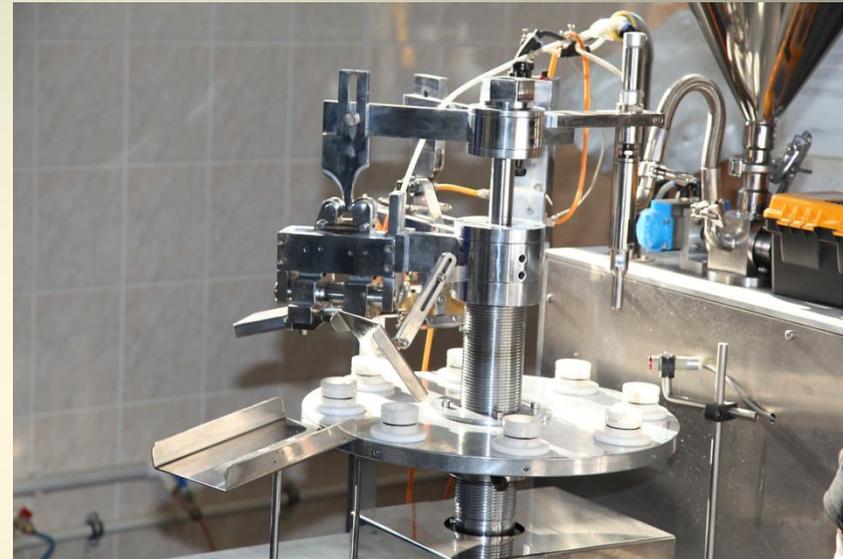

Laboratory

We Manufacture All Of The Plastic Packaging and Lids Of Our Products & Lots Of Our Private Label Customers' Products.

Serial Number – Liquid Manufacturing & Filling (Cream, Lotion, Oil, Shampoo, Etc ...)
